

Please do not expand LPFM. This will disrupt an important service in my community, provided by radio stations like KLOVE. Displacing this station in favor of an LPFM would have a devastating impact on me and my community. The KLOVE signal is clear, the programming encouraging, and the freedom of speech and religion essential for a free country. This is obviously in the public interest. Our culture has seen a gradual but obvious and devastating slide in morals and character. Stations like KLOVE continue to provide hope much like a light in a dark forest. KLOVE's free expression must continue to keep our Country free, secure, and prosperous. Thank you for your consideration.
